

soundbite™ SELF-ADHESIVE TILES

Easy to hang, and completely removable, Soundbite Self-Adhesive Tiles combine the noise reducing properties of acoustical wallcoverings with the removable and repositionable innovations of self-adhesive backing. Created from recycled water and soda bottles, Soundbite Self-Adhesive Tiles have a pre-applied adhesive backing which is repositionable and removable, leaving no residue or damage to walls. It has a Class A fire rating, is antimicrobial, durable, scrubbable and can be bleach cleaned.

- Pre-applied adhesive backing which is repositionable and removable, leaving no residue or damage to walls
- Easy to clean and maintain
- Antimicrobial, durable, scrubbable, and can be bleach cleaned
- eco-fi polyester from recycled water/soda bottles
- No PVC, no VOC's, no ODS's, no heavy metals or formaldehyde.

APPLICATIONS

Designers	Health Care	Hospitality	Corporate	Institutional	Entertainment
<ul style="list-style-type: none"> • Commercial Interiors Market 	<ul style="list-style-type: none"> • Retirement • Nursing Homes • Hospitals • Nursing Stations 	<ul style="list-style-type: none"> • Ballrooms • Conference Rooms • Meeting Rooms 	<ul style="list-style-type: none"> • Executive Conference Rooms • General Offices 	<ul style="list-style-type: none"> • School Auditoriums • Government & Mass Transit Buildings • Day Care Centres 	<ul style="list-style-type: none"> • Theatres • Recreational Centres

FLAMMABILITY SPECIFICATIONS

Flame Spread **10** Smoke Developed **50**

Note: The numerical flame spread rating and other test results referenced herein are not intended to reflect hazards presented by this or any other material under actual fire conditions.

Installation and maintenance instructions are enclosed with every Soundbite shipment and should be carefully read prior to installation. For best results, installation is recommended by a qualified textile wallcovering installer.

SPECIFICATIONS

Content	Backing	Height	Width	Packaging	Flammability
100% eco-fi polyester from recycled water/soda bottles	Peel + Stick Adhesive	13"	13"	4 Tiles per box / 8 Triangle Tiles per box	Class A/ASTM E-84
NRC	Installation				
ASTM C-423 up to 0.20	Random Match				

Fosshield® Antimicrobial Technology - silver & copper ions are incorporated into the polyester fiber and naturally attack microbes. Fosshield® inhibits the growth of bacteria, mold and fungus, providing permanent protection. Ions bind to any microbes that may be present on the fiber and disable their critical functions (metabolism, respirations and reproduction). Typical examples of microbes of common concern are Methicillin-resistant Staphylococcus aureus (MRSA), the Human rhinovirus (common cold), Streptococcus pyogenes (strep), Legionella pneumophila (Legionnaires disease), Human Coronavirus (SARS surrogate), and Feline Calicivirus (Norwalk virus). Fosshield® is the technology incorporated into the FDA cleared SpectraShield® 9500 N95 surgical respirator mask. In the FDA testing, Fosshield® began microbe prevention immediately and eliminated 99.99% of certain odour-causing bacteria after one hour of contact with the respirator surface.
